STRIKE IS BIG

Drain Tunnel Has Been Drifting Thirty Feet Through Solid Galena.

tained an average thickness of over five feet. It is just as strong in the bottom as it is in the top of the drift and there was nothing to indicate, when he left camp, when the eastern limits of the shoot would be reached. With 300 feet of virgin ground between the 1,100-level and the horizon upon which the great drain and operating tunnel has been driven, there has nathrally been some anxiety on the part of the management as to whether the ore bodies encountered above would go down that deep, and whether they would be good or bad. This is the first one of many that should be encountered during the next 1,200 feet of driving and the present strike makes it of driving and the present strike makes it of driving and the present strike makes in a practical certainty that the fondest anticipations of those who felt certain that the biggest portion of the bonanza was in the bottom are to be realized.

AFTER A BONANZA.

Salt Laker Pulls Out for Silver City, Ida., to Land It.

George Wilson left for Silver City, Ida., last night on an errand fraught with importance to himself and those associated with him, as it involves the capture of a mining proposition in which \$5,600 silver ore has just been uncovered. If the reports brought down and the samples of ore shown are going to amount to a fraction of what is claimed, there will be a happy bunch of operators in this old town within a few days.

Mr. Wilson said during the afternoon that matters were in just such a shape that it was impossible to give any details of what was up other than that a most sensational strike had evidently been made and that Salt Lakers, including himself, were right on the inside for a big turn if all was right, and he had no George Wilson left for Silver City, Ida.

big turn if all was right, and he had no reason to doubt but what it was. He expects to be back during the coming week with full particulars and arrangements made that will permit his telling

bit of information calls to mind Mont.-Ton. This bit of information calls to mind the statement of a mining engineer who has been spending a great deal of time in Nevada lately, and particularly in the region to the north of where most of the excitement of the last three years has

existed.

"My opinion is that the present year will witness a succession of new disclosures all the way north from Tonopah and clear through the state to Silver City, Ida.," said he the other day, "Gold, silver, lead and copper will all play important parts in these disclosures, for the entire country is rich in mineral. For the past two years or more prospectors have been two years or more prospectors have been doing all their work in the southern portion of the state. I have noticed that they are drifting north and they are do-ing just right, for they are now working in a country that is just as richly min-eralized, while the physical conditions are far better than they are down in the

TINTIC'S ORE OUTPUT HEAVY.

Twenty-Two Mines Send Out 208 Cars in a Week.

(Special to The Herald.) Eureka, Feb. 2.—The production of Tintic mines during the week ending last night was another record-breaker. From twenty-two different properties a total of 208 carloads of ore were forwarded to market, the list showing all the way from one to fifty-nine cars to the mine. Fol-lowing is the list of participating proper-ties and the number of cars sent out by

January's Business Was the Heaviest in Several Years.

VALUES ARE HIGH IN LEAD

TINTIC ORE SHIPMENTS FOR WEEK ARE HEAVY.

To thirty feet the Honerine company's drain tunnel level has now been pounded through solid galena ore in the shoot that was encountered last Monday night. Manager E. J. Raddatz came in yesterday was clipped off the selling process for the day cases. A day case the ore which was placed on exhibition in the company's offices and many of those interested in the company saw the samples during the day.

While no assays have been made on the material, Mr. Raddatz calculates from his knowledge of its characteristics, that the mass will average between 15 and 85 per cent lead, 35 ounces sliver and 31.85 per cent lead, 35 ounces sliver

Enormous Individual Transactions in Amalgamated Copper Stocks Yesterday's Feature.

MANY PROPOSED MERGERS

SPECULATION GREATLY AFFECT-ED THEREBY.

New York, Feb. 2.—The feverish activity and voluminous business today tended rather to obscure the diminished speculative interest in the market as a whole ative interest in the market as a whole. Rock Island Co.. 36,700 Such a falling off of interest with a Preferred Such a falling off of interest with a wavering of prices usually follows a period of speculative readjustment like St. L. Southw. ... that which has occurred this week. The Preferred 300 forced liquidation in the early prices for South Pacific 9,400 Preferred 100 opportunities to an eager bear clique which sold stocks on decline with great freedom. Their necessary buying operations to cover were strong features in the rally and the uncertain tone of tothe rally and the uncertain tone of to-day's market was a fair indication that day's market was a fair indication that these operations had been pretty well completed. Such speculative interest as there was today confined itself almost entirely with merger projects in all stages from the vaguest rumors to detinite and detailed statements of alleged terms.

U. S. Express U. S. Rubber Preferred ... U. S. Steel ... Preferred ... Va. Caro. Ch. P

Some sort of combination among the Wabash Some sort of combination among the recently contending copper interests is commonly accepted as an accomplished fact. Enormous individual transactions in Amalgamated Copper, both on the buying and upon the selling sides had a rather formidable effect on sentiment and way. Lake Erie. West. Union ... W. & Lake Erie. Preferred.

The southern iron group also made a vivid response to revived merger stories. The character of these advices seemed to be regarded with some distrust and other stocks were sold. Reading was affected by the seeming deadlock in the efforts at a settlement of the wage dispute between the coal miners and operators. The bank statement cutlook probably had some depressing effect upon the general market. Rates for foreign exchange were maintained and it is still considered probable that gold will go out. The general list made some recovery from the declines and the closing tone remained irregular.

Bonds were irregular. Total sales, par value, \$3,176,600.

United States 2s coupon advanced 1/8

GRAIN AND PROVISIONS.

nicago, Feb. 2.—Notwithstanding that predicted cold wave failed to develop the winter wheat section of the United tes, numerous reports of damage to es, numerous reports of damage to-fall sown crop were received here to-

RESULTS WERE

Trade Remarkably Good During the Past Month in Spite of the Mild Weather.

SPRING BUSINESS BEGINS

PRICES OF STAPLES A TRIFLE St LOWER.

New York, Feb. 2 .- Dun's Weekly Review of Trade tomorrow will say: Complaints have been numerous regarding the mild weather, January having

ing the mild weather, January having closed without bringing normal winter temperature in many sections of the country. Yet results for the month were most satisfactory on the whole and preparations for the future continue with undiminished confidence.

Failure statistics in January made a favorable comparison with last year's figures, railway earnings were 14.3 per cent larger and if the general results in January are maintained during 1906 will be another record breaker in the mercantile world. Foreign commerce at this point for the last week showed a small loss of \$36,527 in exports and a decrease of \$333,500 in imports as compared with 1905, which is unimportant, considering recent gains.

Another moderate decline is noted in the average of quotations for domestic hides, country varieties providing the weakness this time, while packer hides have steadled at the position to which they fell last week, after very large transactions. Receipts of foreign dry hides are limited, which maintains prices hides are limited, which maintains

Failures in the United States this week numbered 268 against 259 last year and 27 in Canada against 30 last year.

Bradstreet's Report.

Bradstreet's tomorrow will say: There is more snap to spring trade this week, jobbers and manufacturers particularly at the west and south noting more inquiry for dry goods, clothing, shoes and simi-lar lines. The winter wheat crop does not show any effects of lack of snow covering throughout the most of the

winter.

Raw wool is also firmer, though quotably unchanged. Shearing has begun in Arizona and full prices are being paid.

Prices of a number of staples are easy or lower this week. Buff hides are weak, but packer hides are strong.

Wheat, including flour, exports from the United States and Canada for the week ending Feb. are 3,056,208 bushels, against 3,433,585 last week and 945,358 this week last year, 2,604,226 in 1904 and 3,965,916 in 1903. From July 1 to date the exports are 83,727,447 bushels, against 40,602,403 last year and 101,351,344 in 1904 and 150,957,538

Corn exports for the week are 8,289,359 bushels against 5,633,265 last week, 5,302,503 a year ago, 1,411,186 in 1904 and 2,400,316 in 1903. From July 1 to date the exports of corn are 68,428,049 bushels against 33,143,664 in 1905, 33,881,588 in 1904 and 22,736,129 bushels in 1903.

els in 1903. els in 1903.

Business failures in the United States for the week ending Feb. 1 number 228 against 276 last week, 239 in the like week of 1905, 216 in 1904, 208 in 1903, and 208 in 1902. In Canada failures for the week

BANK STATEMENT.

New York, Feb. 2.—The following table compiled by Bradstreet, shows the bank clearings at the principal cities for the

week ended Feb. 1. with the percentages closed strong, with May pork up 22½@25c, lard was up 7½c and ribs 12½@15c higher. The leading futures ranged as follows:

I GO ANYWHERE To photograph anything. Harry Ship-

ler, Commercial Photographer, 151 So. Main 'Phones: Bell. 2825-K: Ind., 1174. Special Stockholders' Meeting. NOTICE IS HEREBY GIVEN THAT

NOTICE IS HEREBY GIVEN THAT a special meeting of the stockholders of the Wabash Mining company, a corporation of Utah, will be held at the company's office, rooms 520-22, Atlas block, West Second South street, Salt Lake City, Utah, on Thursday, the 15th day of February, 1906, at 1 o'clock p. m. of that day, for the purpose of considering amendments to the articles of incorporation, and if the stockholders shall so decide, amending the articles of incorporation in the following respects, viz:

1. By increasing the capitalization of the company from \$300,000, divided into 300,000 shares of the par value of \$1 each, to \$2,000,000, divided into 250,000 shares of assessable stock of the par value of \$5 each share, and thereby to reduce the present number of assessable shares from 300,000 to 250,000 shares, and to provide for 150,000 of non-assessable shares; the total issue to be 400,000 shares. Also to provide for the issue of the newly created assessable stock, share for share, in lieu and in place of the now issued and outstanding assessable stock, and the substitution of the surplus then remaining of the newly created assessable stock for the assessable stock now in the treasury, and to provide for the placing of the newly created non-assessable and non-assessable stock in the treasury and to provide for the sale and disposition by the board of directors of all the newly created assessable and non-assessable stock in the treasury and to provide for the sale and disposition by the board of directors of all the newly created assessable and non-assessable stock in the treasury and to provide for the sale and disposition by the board of directors of all the newly created assessable and non-assessable stock in the treasury, and to the newly created assessable and non-as-sessable stock in the treasury, and to provide that all the newly created shares.
